DELEGATES RISE TO CHEER

President Gompers Replied Feelingly
That He Deeply Appreciated the
Hearty Support of His
Conduct.

Toronto, Nov. 20.—Amid tremendous enthusiasm, Samuel Gompers was re-elected president to-day of the American Federation of Labor. For several minutes, the delegates rose to their feet, cheering the great leader. President Gompers replied feelingly, declaring he deeply appreciated the hearty support of his conduct.

Continuing, President Gompers said: The principles for which he and his colleagues stood had received a most hearty endorsement by their action. Over conviction for contempt of court applies not only to us, but to the 2,000,000 union laborers of America. The decision virtually declared 2,000,000 people were denied the right of free speech.

The convention yesterday, besides indorsing the attitude taken by President Gompers in the Bucks Stove and Range company injunction proceedings, voted to continue the salaries of Gompers and Secretary Frank M. Morrison, and to compensate Vice-President John Mitchell, who is not a salaried officer, during their terms of imprisonment, should it be eventually decided that they must go to jail for contempt of court.

They will be paid at the rate of \$5,000 a year.

St. Louis gets the next American Federation of Labor convention.

BALLINGER'S DENIAL.

Talks about the Candidate of His Department.

Washington, Nov. 20.—Replying to charges made in a magazine publication, Secretary Ballinger of the interior department took occasion to deny many of the reports which recently have been circulated concerning the conduct of his department and to explain others.

To say that I ever have advised, aided or lent support to any effort to perpetrate a fraud upon the government," he said, "is not only false but it is intentionally so if made by any one who has taken the trouble to inquire into the facts."

Mr. Ballinger denounced as "a plain, ordinary falsification" a report that he is interested in 155,000 shares of Alaska Petroleum Coal & Coke company.

Asked about a statement that he had said that the proper course to take with the public domain was to "divide it up among the big corporations and let the people who know how to make money out of it," Mr. Ballinger replied:

"So asinine a statement hardly merits a denial. Of course, I made no such statement. I have not only been consistently in the vanguard of the conservative movement, but I have sought to give it permanence along lines reasonably within the spirit of present law and to secure adequate additional land."

Mr. Ballinger also made response to a charge that in granting right of way to the Hill and Harriman railroads through the Deschutes Canyon in Oregon he had rendered impossible the construction of a power plant in the canyon.

Senator Frank J. Linahan Brings Action
of Nature of Suit Secret.

"THE SPEAKER NOT A CZAR."

Cannon Also Pays Respects to Insurgents.

Chicago, Nov. 20.—Joseph G. Cannon, Speaker of the House of Representatives, answered his critics with a defense of the present rules of the House and denied that the Speaker was a czar, in a speech last night. Mr. Cannon spoke in favor of W. J. Moxley, Republican candidate to succeed William Lorimer as congressman for the sixth district from Illinois. Mr. Cannon also paid his respects to Senator A. R. Cummins of Iowa and Congressman Champ Clark of Missouri, the leader of the minority of the House. President Taft was praised for his defense of the new tariff law in his speech at Winona, Minn., during his recent trip across the country.

According to Mr. Cannon, Senator Cummins complained that no information was placed before Congress during the recent tariff revision. Mr. Cannon remarked that there were no loads of information for any who wanted to make use of it and added: "There has been no way discovered by which information can be put in a man's skull without any industry on his part."

A denial of the charges that he read either Senator Fa Follette of Wisconsin or Senator Cummins out of the Republican party was entered by Mr. Cannon. "What I did say," said Mr. Cannon, "was that if Cummins or La Follette were Republican then I was not."

In speaking of Champ Clark, Mr. Cannon said: "We all like Champ Clark; what he does not know about ad valorem duties, schedules and parliamentary law would make a large library; but he is an expert on Chautauques." Mr. Cannon ended his speech by cautioning his auditors to elect a man who would cast his vote in Congress as they would cast theirs if they were there, thus overcoming with their own will any possibility of despotism by the Speaker.

The United States revenue cutter Yamacraw has been added to the government vessels already searching.

TROY'S MURDER MYSTERY.

Belief Now That Girl Was Seized by
Thug, Garroted and Robbed.

Troy, N. Y., Nov. 20.—The authorities who are investigating the murder of Miss Caroline G. Gorge of Green Island appear to be at a standstill as far as direct clue which would lead to an arrest is concerned. The body of the young woman was found in a bush-grown vacant lot Wednesday in the northern part of Green Island, just across the river from this city. She had been killed, assaulted and robbed of a small sum of money. The case has created the greatest interest throughout this section. Two rewards have been offered for the arrest and conviction of the murderer, one for \$1,000 by the Albany county board of supervisors and \$500 by the village of Green Island.

Last night the belief appears to be gaining ground that the girl was not released; that she was seized from behind by some thug, garroted with a pressure of the forearm, assaulted and robbed. The crime is now thought to have been committed either at or near the spot where the body was found. Miss Gorge was last seen at 6:30 o'clock Tuesday night, going home.

The police have not been close enough to recognize either thought little of the occurrence at the time.

Sustains Government on Nearly Every

Favor of Minor Companies—Or-
der Takes Effect in 30 Days.

St. Louis, Nov. 20.—The government is a winner in the suit to dissolve the Standard Oil company of New Jersey. In a decision to-day in the United States circuit court by Judge Elmer B. Adams, the big oil trust received a body blow. The government is being sustained on nearly every point. The only exceptions made are in favor of some of the minor subsidiary companies named as defendants. These, it is held, are not clearly shown to be dominated by the trust. The orders of the court in regard to the Standard do not take effect for thirty days.

bridge This Afternoon—Bet-
ting Even.

Boston, Nov. 20.—When at 2 o'clock this afternoon the blast of Referee Langford's whistle announced the beginning of the annual Harvard-Yale football game in the Stadium on Soldier's field, a crowd of nearly 40,000 people had assembled. Both eleven were physically fit and confident of victory. Neither, however, has in any way belittled the ability of its opponent. Rival coaches and rival captains, as well as the rival players of each squad of varsity possibilities, had a wholesome respect for each other.

Captain Fish started in the game when the whistle blew. The line-up of the teams at the beginning of the game was:

Frank Woodbury, Secretary of Grand
Lodge of New Hampshire, Dead.

GETS \$200 FOR THEM.

Miss Falvey Finds Papers Lying in the
Road.

Centerville, R. I., Nov. 20.—Miss Nora Falvey was last night blessing the instinct that prompted her to pick up a bundle of papers which she saw on the ground near Waltham lake, Burdellville, and rejoicing in the possession of \$200, which an unknown person bestowed upon her for finding them.

Miss Falvey went to the Waltham lake sanatorium to visit her brother and when returning to the station found a bundle of papers lying in the road. She had gone a quarter of a mile when she was met by a man who inquired if she had seen any papers. Producing the bundle which she had just found she presented it to the man and asked if it was the one which he sought.

Without hesitating to answer, the unknown man pulled out a roll of bills and peeling off \$200 presented them to Miss Falvey, and was off before she had time to thank him.

Miss Falvey to-day is wondering who the unknown man was so glad to get the papers and to reward her so handsomely for finding them.

RAIDS AT ISLAND POND.

Caledonia County Officers Go into Essex
County on Liquor Hunt.

Island Pond, Nov. 20.—At the request of State's Attorney Hunt of this county, Sheriff George E. Welch and 18 deputies of Caledonia county descended on this place yesterday and searched 13 places. They secured liquor in three and made eight arrests. The places where liquor was secured were the Stewart House, where two and a half barrels of beer, a case of whiskey, a half barrel of whiskey, and other liquors were taken, a drug store and a dwelling house. The liquor and prisoners were taken to Guildhall, where their cases are being heard to-day.

The reason State's Attorney Hunt sent out of the county for officers was because Charles Powers, one of the deputies for Essex county, conducts the Stewart House.

Puts Bullet Through Heart

A STUDENT AT INSTITUTE

Cause of Suicide a Mystery, But It Is
Supposed Girl Was Deranged from
Overstudy—Home Relations
Pleasant.

Lyndonville, Nov. 20.—Romona Clarke, the thirteen-year-old daughter of Mr. and Mrs. Philip Clarke of Main street, this village, took her own life by putting a bullet through her heart, after retiring last night. No cause is known for the deed, and it is ascribed to temporary derangement due to overstudy.

Romona was a very bright and promising young woman, a student at the Lyndonville institute, and a pianist of considerable ability and a bright scholar. She spent the hour between 8 and 9 last evening at Cobligh Memorial library studying. She went straight home and to bed. Between 10 and 11, both her father and mother were awakened by the report of a revolver. Her father looked for her, and it was missing from his usual place. He went to his daughter's room and found that she had shot herself through the heart. Dr. Cheney was called and stated that death was instantaneous.

Mr. and Mrs. Clarke are among the best people of the town. He is a car inspector on the Boston & Maine railroad. The family relations were very pleasant and the young lady had all her wishes gratified. Derangement from overstudy is the only reasonable explanation of the deed.

F. Simonetti, 1909 poll tax. He asked to have it abated, as he was unable to work on account of illness. Abated.

C. A. Cobb appealed by letter from Middlebury, Mass., to have the costs, which had been added to his tax by the collector, abated.
